

NMEA2000 system with Victron, Raymarine and Empirbus

The Göteborg Boatshow in Sweden, which took place from 2-10 February 2013, attracted more than 100.000 visitors. Victron distributor **Odelco AB** was present at the boatshow with a NMEA2000 system, containing Victron Energy, Raymarine and Empirbus. With this system the Victron MultiPlus can be monitored and controlled via the Raymarine display.

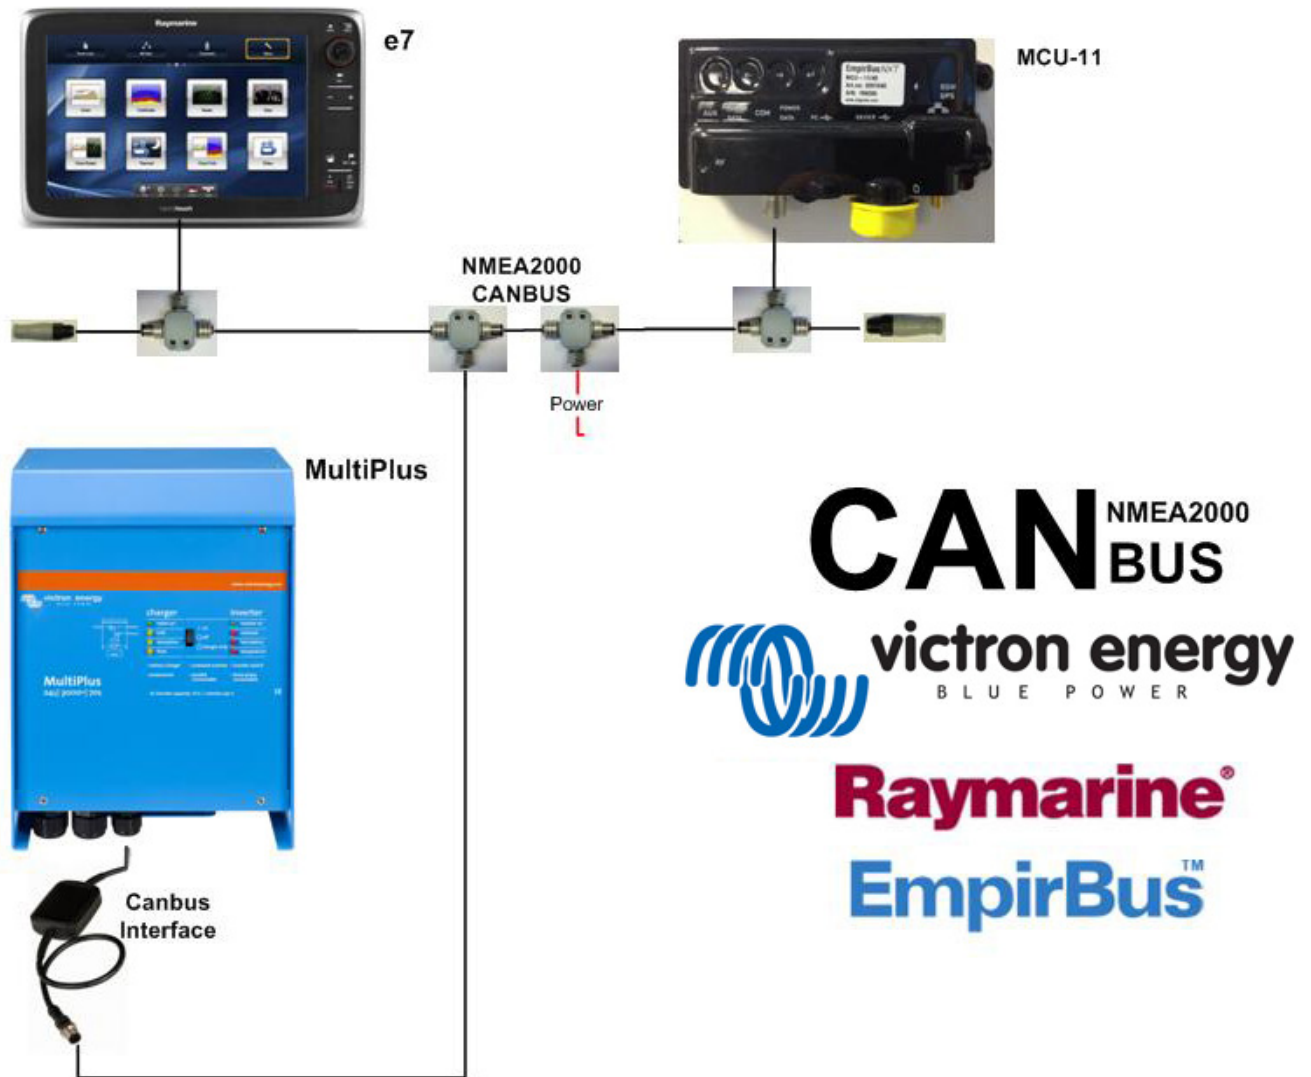

NMEA2000 network

NMEA2000 is an open CAN-bus network in which equipment from different manufacturers can communicate with each other.
